Whitening For Life Program

We feel every patient deserves to have a beautiful smile they can be proud of. The Lodi Valley Dental Whitening for Life Program is a special offer for our patients that are committed to consistent oral hygiene. It is extremely important to maintain dental treatment to maintain a healthy beautiful smile. In fact, patients who maintain regular hygiene appointments and receive recommended treatment spend less money on dental care (on average) than those who only see the dentist when they perceive a problem exists. All too often, people who wait until there is a problem have irreversible damage to their gums, teeth or jaw.

Maintaining the best possible oral health is a team effort. Consistent home care is as important as regular visits to our office. As a courtesy, provide at least a 48 hour advance notice if a schedule change is needed. *Whitening for Life* was developed as a program for those patients that are taking their dental health seriously.

Whitening for Life terms and conditions

Like most offers, you must comply with some simple requirements in order to be part of this program. To be eligible for our Whitening For Life program you need to meet the following requirements:

- Honor your regular hygiene dental checkups 2-3 times a year. We will be happy to supply you at each checkup with a whitening syringe at no additional cost to you! Compliance with the recommended recare schedule will help reduce dental expenditures and the need for emergency care.
- Must keep your mouth healthy. Lodi Valley Dental, LLC has the right to refuse the offer based on patient current or future health conditions. We want to protect your teeth—without proper gum and teeth health, whitening could be detrimental to your oral condition.
- Please understand that you need to keep your balance and your family's balance up to date – it must be paid within 30 days. All accounts must be current (no outstanding bills).

If you fail to meet the above requirements, we will provide you with a one time opportunity to re-enroll in the program for a \$50 reactivation fee.

We are sorry that we can not be responsible for lost or broken trays; however, if your tray wears out, we will provide you with one set of new trays after 3 years at no charge. Replacement trays are available for \$50.00 each with patient provided models. If new models need to be made it will be an additional \$75.00 each.

Please note: Most everyone sees a significant improvement from whitening, however, the level of whitening works to different degrees depending on the patient's teeth. If you have sensitivity, please inform us before starting treatment or as soon as symptoms appear. Some patients may notice initial temperature sensitivity from whitening which can be treated with Advil and will usually subside within a few days. We have several medicaments to reduce sensitivity. The Whitening for Life Program is a courtesy extended by Lodi Valley Dental, LLC and has no cash value. Lodi Valley Dental, LLC may end the program without liability, if the Standard of Care related to tooth whitening changes.

Disclaimer: Lodi Valley Dental maintains the right to refuse offer if deemed necessary based on patient health conditions and or misuse of whitening products.

I _____ hereby certify and agree to the terms and conditionals outlined above. I understand that *Whitening for Life* is a program offered to individuals who meet and maintain all these conditions.
